Milestone 6 Task Discussion

- User Manual
  - Created the document that tells the user how to use the system
  - Explains the different types of users that can be on the system
  - Also explains the different features of the system and how to use them
- Developer Manual
  - Created the manual that explains the system on a developer level
  - It has a diagram of the system architecture and a description of each of the systems
  - It also contains a description of the source files as well as an explanation of each of the methods and functions our programs use
- Demo Video
  -

Milestone 6 Task Discussion

- Revisions of Board and Print physical board
  - The board has been updated from our first revision
  - Still needs to be printed
- Progress Evaluation
  - Created the progress evaluation document
- Usability and Security Testing
  - The usability testing was worked on to attempt to see if the user experience was up to standards and somewhat understandable
  - We were unable to get a large amount of input from outside sources but worked as best we could with the data we collected
  - The security testing suite that we had was not the largest
  - We did conduct some security testing on the different systems
